§ 4. Economy

a) Financial report by the 30.11.2013 (Appendix 3a)

Mrs. Bakke presented the financial report and the balance sheet for the financial year 2013, per 30.11.2013. The financial situation looks quite good, but there are still some elements that might be open in connection to the WFC. We are somewhat below budget on the cost side, but also under the budgeted income.

Mr. King asked about the need to secure a minimum level of assets, when the financial result has been negative in the last few years.

Mrs. Bakke felt that this will have to be looked upon.

Mr. Wolmhed felt that we need to secure at least even numbers.

Mr. Eriksson felt that it is very important that we can predict the coming results. The equity has to be kept on a high enough level.

The CB decided: To approve the report.

b) Information on IFF claims – status November 30th, 2013 (Appendix 3b)

Mr. Kratz presented firstly the claims situation by the 30.11.2013. The IFF Office has worked hard to reduce the claims and have been able to reduce it with around 42.000 CHF, which is around 10 per cent of the total debt. We have had discussions with all member associations in debt, to see how the debts could be solved by October 2014.

In addition Mr. Kratz reported on the actions taken with the member federations in debt to IFF. In light of the implementation of the IFF Licence System there are a number of countries in danger to participate in the WFC2014. The dead-line for clearing the debts is by October 2014.

Mr. Eriksson feels that we still have to monitor the situation and be hand on for the implementation of the Licence system.

The CB decided: To approve the report.

c) Proposal for IFF Budget for 2014 (Appendix 4)

Mr. Kratz presented the IFF Office proposal for the updated IFF Budget for 2014, based on the decision made by the IFF General Assembly in Zürich in 2012. The budget is built with some caution, in order to be able to make a positive result.

The focus for 2014 is on the IOC Road Map making the organisation ready for the Short List application and the development of the IFF communication channels.

Mr. Wolmhed asked about the reduction of the office support from previous year.

Mr. Liljelund answered that the reduction is due to the ending of the Unihoc support for the Development Coordinator in the end of 2013.

The CB decided: To approve the report.

§ 5. World Championships

a) WFC 2013 Czech Republic

Mr. Suman reported on the running of the Women's WFC 2013 played in Brno and Ostrava, in Czech Republic from the 7th to the 15th of December. The objective was to raise the level of the Women's championships close to the Men's WFC. The investment has been really big, in order to help the Floorball community. The marketing, the ticket sale, the venues and the media has been the major part of the investment, trying to secure that the whole country is aware of that the WFC is played.

The WFC in mid-way and at least the number of spectators has been very good in Brno, with over 16.000 during the four first WFC days. There are also over 200 accredited journalists in the WFC. The number of TV spectators in Czech TV has reached the same level as the Women's Basket WC, which is being considered as a benchmark for women sport in Czech Republic. The financial support of the City of Ostrava has been a key for the organiser. The target is to break all spectator records for the Women's WFC in both total number of spectators and in a single game and the final. The estimation is that the financial result will be event.

Mr. Kauppinen is very glad to hear that the organiser can make an even result. The investment has to be made and work has to be done.

Mr. Stoll asked how the logistic move from Brno to Ostrava was successful, since everything was moved already on Monday after the end of the games in the B arena.

Mr. Suman answered that there was some issues with the move. The future will require that the Events will be played in more cities to secure city support and presence of the spectators.

Mr. Liljelund stressed that the organiser has been able to move the operations from Brno to Ostrava, but the issues with the flooring in the A arena proved how vulnerable the time factor is when going to a new arena. Mr. Liljelund further felt that the marketing campaign has been very diverse and also effective.

Mr. Eriksson raised some questions in relation to the Miss Czech Florbal, after having been confronted in the matter by Swedish media. The Swedish media has been very focused on the equality question and the clothing issue of women in sport. IFF has earlier declined female teams to play in skirts. The Swedish team has also been quite concerned about the competition.

Mr. Suman expressed that the campaign has been supported very well by the female Floorball players and has been a separate project to the WFC. The intention was not to upset any team and there is a difference of opinion in the matter.

Mr. Stoll felt that this is a slight problem to have a beauty competition as a marketing factor. If we say that we take equality seriously, we need to follow this strictly and trying to avoid the situation.

Mr. Bollinger felt that it is a good side event to the WFC, since we are a young and dynamic sport.

Mrs. Mikkola is of the opinion that the IFF should not sanction the beauty contests, in connection to the WFC.

Mrs. Bakke expressed that the IFF should not be behind this kind of activities, but we should remember that for example in Asia the beauty contests are very popular. Women in sports are far better candidates for beauty contest.

Mrs. Kotikova felt that this is communication and cultural question. Therefore respect of each other and balance is needed. The Czech players felt it was a good thing.

Mr. Kauppinen told that he can understand everyone's opinions, but strongly agree with Mrs. Mikkola and Mrs. Bakke.

Mr. King stressed that we need to make sure that the uniforms are the same for both genders. We also need to be careful not to become the morale police if the LOC wants to use it as a marketing tool in a good way.

Mr. Liljelund felt that there are three different levels here. The beauty contest is a local marketing matter, which the LOC is responsible for. The IFF has asked not to officially connect it with the WFC marketing, but the Swedish media has made it a hot potato.

Mr. Mikkola is asked how much freedom the LOC is given for local marketing.

Mr. Wolmhed agreed with Mr. Liljelund of the different levels of marketing. The beauty contest and the WFC should be fully separated and that all activities in connection to the beauty contest shouldn't be allowed in the IFF events. Mr Wolmhed also thinks that this type of contests is further creating a problem, due to the fact that it focuses of the beauty aspect, instead of the technical sporting skills, in the society which we in the Floorball community should avoid to be a part of.

Mr. Eriksson concluded that the IFF is not taking part of any Beauty contest in the WFC and the project is a part of the LOC marketing program.

Mr. Liljelund reported on TV situation, where a total of 20 matches are televised to at least 5 countries. IFF has also been able to secure the broadcast of the medal matches with Eurosport for their Nordic window (Nordic countries). The level of production of the Czech TV is really good.

In addition it has been agreed that the Slovak TV can film the 3 Slovak group games and the possible first level playoff match for news use in the group stage. **(Appendix 5)**

Some technical problems with the satellite segments has occurred, but have been solved.

The CB decided: To approve the reports.

b) WFC 2014 Sweden

Mr. Wolmhed is to report on the preparations of the Men's WFC 2014 in Gothenburg. The organisation is being built and a number of persons have been hired. The ticket sales will start in March and the ballot will be on the 25th or 26th of February. The discussion with TV has started and the match schedule, which will be dealt with during the spring. The LOC will organise a test event in 3th of January 2014, between Sweden and Czech Republic.

Mr. Kratz reported on the preparations of the WFCQ2014 to be played in Canada, Latvia, New Zealand, the Netherlands, Poland and Slovakia. All preparations are moving forward in respect to travelling and venues. The WFCQ in Slovakia has been faced with an issue, due to the possible change of ownership of tournament venue, but it has been settled during the last week.

Mr. Eriksson gave positive feedback for the way the preparations have been dealt with.

The CB decided: To approve the reports.

c) U19 WFC 2014 Poland

Mr. Kratz reported about the U19 WFC 2014 to be played in the cities of Babimost, Rakoniewice and Zbaszyn between the 30th of April to the 4th of May, 2014 with fourteen teams. The schedule is published but there can still be changes. A discussion is going on with LOC of a possible change of arena for the semifinals and final from Zbaszyn to Rakoniewice. The IFF Competition Department will discuss with the LOC, if the final venue can be changed.

The CB decided: To approve the report

d) New Organisers

Mr. Kratz reported on the two applications handed in for the organisation of the U19 WFC 2015, in order to find a replacement for the organiser, after Singapore has informed they are not in a position to organise the event. The Polish Federation has handed in an application for the U19 WFC2015 during the week, which however arrived way past the set dead-line.

The Swedish Floorball Federation (**Appendix 6a**) and the Slovak Floorball Association (**Appendix 6b**) has applied for the organisation of the Men's U19 WFC 2015. The late arrived Polish application was taken to the minutes. (**Appendix 6c**)

The IFF Competition Department proposes to appoint the Swedish Floorball Federation as the organiser of the U19 WFC2015.

For the following U19 WFCs IFF has received the application for Men's U19 WFC 2017 from Slovakia, Sweden and Switzerland and Switzerland has also applied for the organisation of the Women's U19 WFC 2018.

Mr. Kratz further informed that only the Slovak Floorball Association applied to organise the Women's WFC 2017 and the following member associations applied for the Men's WFC 2018, namely the Czech Republic, Finland and Slovakia.

The IFF has started the process of creating an Event Management Tool, which will make it easier for the applicants and the organisers to plan, execute and report the preparations to the IFF.

It will also give the IFF a direct insight in the preparations, saving time for all parties. In order to be able to connect this development, the IFF Office proposes to table the appointment of the organiser of the WFC 2017 to the CB meeting in May 2014 and the WFC 2018 to the CB latest in December 2014.

The CB decided: To approve the reports and appoint the Swedish Floorball Federation as the organiser for the U19 WFC2015. In addition the IFF CB will make the decision about the organiser of the Women's WFC 2017 and the U19 WFC 2017 and 2018, in its meeting in May 2014. The decision of the organiser of the Men's WFC 2018 will be made latest in the CB meeting in December 2014.

§ 6. EuroFloorball Cup

a) EuroFloorball Cup 2013

Mr. Kratz gave a final report on the EFC Final round played in Trencin, Slovakia from the 9.-13.10.2013. The tournament was very well organized, with a new spectator record for the new system for the EFC with over 5000 spectators. Nauka-Trevelstroy (Russia) won the women's competition and Lekrings (Latvia) the men's, so they are qualified for the Champions Cup 2014.

Mr. Kratz further informed that Floorball Germany has informed that they, due to lack of interest from their Clubs, will not bid for the organization of the EFC 2014 Final round. Discussions with the Norwegian Federation and some other associations have started to find an organiser. The aim is to have it settled by the CB meeting in February. There has also been some interest for organising of the qualifications.

The CB decided: To approve the report.

b) Champions Cup

Mr. Kauppinen gave a final report concerning the organisation of the 3rd edition of the IFF Champions Cup, played in Tampere, Finland. The competition achieved the budgeted financial result of a minus of 70.000 Euro. The total number of spectators of 14.000 was a small disappointment for the organiser. The marketing campaign didn't bring as much spectators as hoped. The changes in the organisation caused some delays for the organiser. The main media didn't follow the competition. The cooperation with the City of Tampere worked very well and was a good rehearsal for the WFC2015 to be played in Tampere.

Mr. Liljelund gave a short report about the number of around 500.000 spectators on TV on five territories.

Mr. Suman reported on the Champions Cup Steering Group meeting held on the 07.11.2013, in Zürich, Switzerland, where the future of the Champions Cup was discussed in detail. (**Appendix 7**) The EFT countries are ready to work hard for the future of the event, in order for the International Floorball. The link with the EFT has to be secured. The main issue is to try to make some adjustments for the organiser for the Swiss organiser for 2014. The main issue is still how to make the event financially sustainable and the stakeholders are to come with specific proposals how to build the future Champions Cup by the 20th of December. Mr. Suman feels that we are able to secure the Event for the future.

Mr. Bollinger gave a short report on the preparations made by the Swiss Floorball Federation to organise the 4th edition of the Champions Cup in the Saalsportshalle in Zurich in 2014. The organisation is a huge financial investment. The financial risk is very high and SUHV is trying to reduce the costs finding possibilities to increase the income together with the marketing company. The SUHV has booked the whole Youth Hostel close to the Arena for the teams and the transportation will be made by public transportation. There has been an agreement made with a marketing agency. The contract will be signed with the SUHV in December.

The CB decided: To approve the reports

d) RC

Mr. Bollinger reported that an IFF RC member Mr. Erik Bilde has informed that he will resign from his post in the IFF RC due to personal reasons. e) Medical committee

Ms. Bruun reported about the present status concerning the IFF Anti-Doping Work, the Medical Committee and the cooperation with WADA.

All planned out of competition tests for 2013 (31), performed by IFF has been ordered. The World Anti-Doping Code 2015 was approved at the WADA World Conference (**Appendix 17**) and the WADA has sent out the first edition of the model rules for the IF's. The most important document we are waiting for is the WADA Risk Assessment document, in order for us to know what we are to test. The doping tests are being planned for the WFCQ's and the Say No to Doping campaign started here yesterday in the WFC. The Medical Committee Chair Mr. Walter Frey participated in an Anti-Doping in Sports Consensus Meeting on 29 November 2013, hosted by FIFA in Zürich, Switzerland. Mr. King reported on the development seminar to be held in Wellington, New Zealand in connection to the WFCQ2014. There will be 3-4 countries present, even if the initial idea was to give high level education for the participating teams. The XFBall is run by the former Swedish national team coach Mr. Christer Olsson and he is offering the IFF and all member associations 15 per cent each of the defined net income of the Premium users of the XFBall. The launch of the program will be in end of January 2014.

The CB decided: To approve the reports.

b) Information operations

Ms. Bruun reported about the made lay-out change of the IFF web page www.floorball.org, giving more focus to social media, photos and videos on the web page.

The new version of the IFF web page, created a lot of issues with the servers, which has forced us to change the www.floorball.org server.

In addition to this the IFF Mobile App has been updated for the WFC. (**Appendix 22**) We have a total of about 2000 active users and around 800 taking part in the "Guessing the result". The mobile application has been downloaded by over 10.000 devices.

The IFF Office had a meeting with the Mobile App developers – the OK Systems, where the situation of the statistics system is critical.

Mr. Eriksson is very happy with the reached results. Mr. Eriksson asked for a plan for how to work with the social media in the February meeting.

The CB decided: To approve the report and to further discuss the social media plan in the next CB meeting.

§ 9. Member Federations

a) Membership questions

Mr. Liljelund reported about the development with the Croatian Floorball and their lack of interest to follow the agreement made, in order to allow their "National Team" to play an international match against Denmark. It has to us become quite clear that Mr. Djakovic is either not in a position or has no interest of solving this issue. What the reasons are for this we don't know, but it has become clear that there is little he is willing to do in the matter.

The IFF concludes that the Croatian Floorball Federation has failed to fulfill the requirements set towards them after the agreement was made for the friendly international between Croatia and Denmark. This would free the situation, since whatever organisation he has in Croatia, IFF is not due to the violation ready to accept it as member. This leaves the door open for the group based in Sweden to start a new organisation, under the supervision of IFF. IFF has been in contact to this group during the last week. (**Appendix 30**)

The CB decided: To approve the report.

b) Members under suspension

Mr. Eriksson reported on the negotiations held with the Malaysian Floorball Association President Mr. Rizal, in connection to the fact that Malaysia are still under suspension, but still participating in the SEA Games in Myanmar.

INTERNATIONAL FLOORBALL FEDERATION (IFF)

Ordinary member of AGFIS/GAISF

The Malaysian Floorball Association has been under re-organisation and has sent in an application to replace the non-existent association, with the new one registered by the authorities in good standings. (**Appendix 28ab**)

The CB decided: To approve the report and approve the new organisation as a IFF Provisional member from 2013 and hence lift the suspension from December 1st 2013. The association shall fulfil all member duties for the 2013.

c) New Member Applications

The IFF has received a membership application from the Cameroonian Floorball Association already a year ago, but the Association has now updated the application and all other information exists apart from the confirmation if the association is registered by any official sports authority. The CB is to discuss the approval of the application. (**Appendix 26a-d**)

The organisation Myanmar Hockey Federation has approached IFF in order to apply for membership, after having taken part in the SEA Games Demo tournament with a Floorball team consisting of hockey players. The Myanmar Hockey Federation has been informed of how to act in this question, but there has to this date yet not been any application handed in.

The CB decided: To approve the reports and approve the Cameroonian Floorball Association as IFF provisional member Nr. 57.
