Women's U19 World Floorball Championships

1-5 September 2021 | Uppsala | Sweden

WELCOME TO THE U19 WFC IN UPPSALA IN SWEDEN

Dear floorball friends, I do hope that each and every one of you are safe, healthy, and well, this is the most important thing in these most surrealistic Covid-19 times. Finally, we are about to return to Floorball taking one step at a time. As IFF President I must thank you all deeply, players, officials, member federations, and the excellent IFF staff, for all your patience and efforts during the Covid-19 era. Hopefully we will be returning to Floorball soonest, but in a new way, things will not stay the same, change has come to stay, and many of you have adapted extraordinary well.

It is with pleasure and honour that the IFF welcomes the entire Floorball family to the beautiful city of Uppsala in Sweden. Swedish Floorball is

an excellent and highly skilled partner in organizing top Floorball events. With all the adapting and willingness from all parties to be flexible it is awesome that as many as 9 countries will compete in two groups in Uppsala.

We are in the process implementing the Strategy “Strengthening the foundations” for IFF for the period 2021-2032. The important and hard work to reach the set targets has started. I am extremely happy to see that as many as 50 persons are taking part from as many as 25 countries worldwide to the four subgroups created, with the aim to reach the targets defined for the key performance indicators. We are working in four groups, the first group is the Awareness and Visibility, the

"As IFF President I must thank you all deeply, players, officials, member federations, and the excellent IFF staff, for all your patience and efforts during the COVID-19 era."

second one is Development, Service level and Expansion, and the third one is the Governance, Sport Culture and Leadership, and the fourth one is the Sport presentation and Appearance. The first period we are working on is 2021- 2024. I wish all the members full success and fruitful work in implementing the Strategy "Strengthening the foundations"!

The IFF, with the participating teams, convey our gratitude to the city of Uppsala and to Swedish Floorball Federation wishing you full success with the WFC U19!

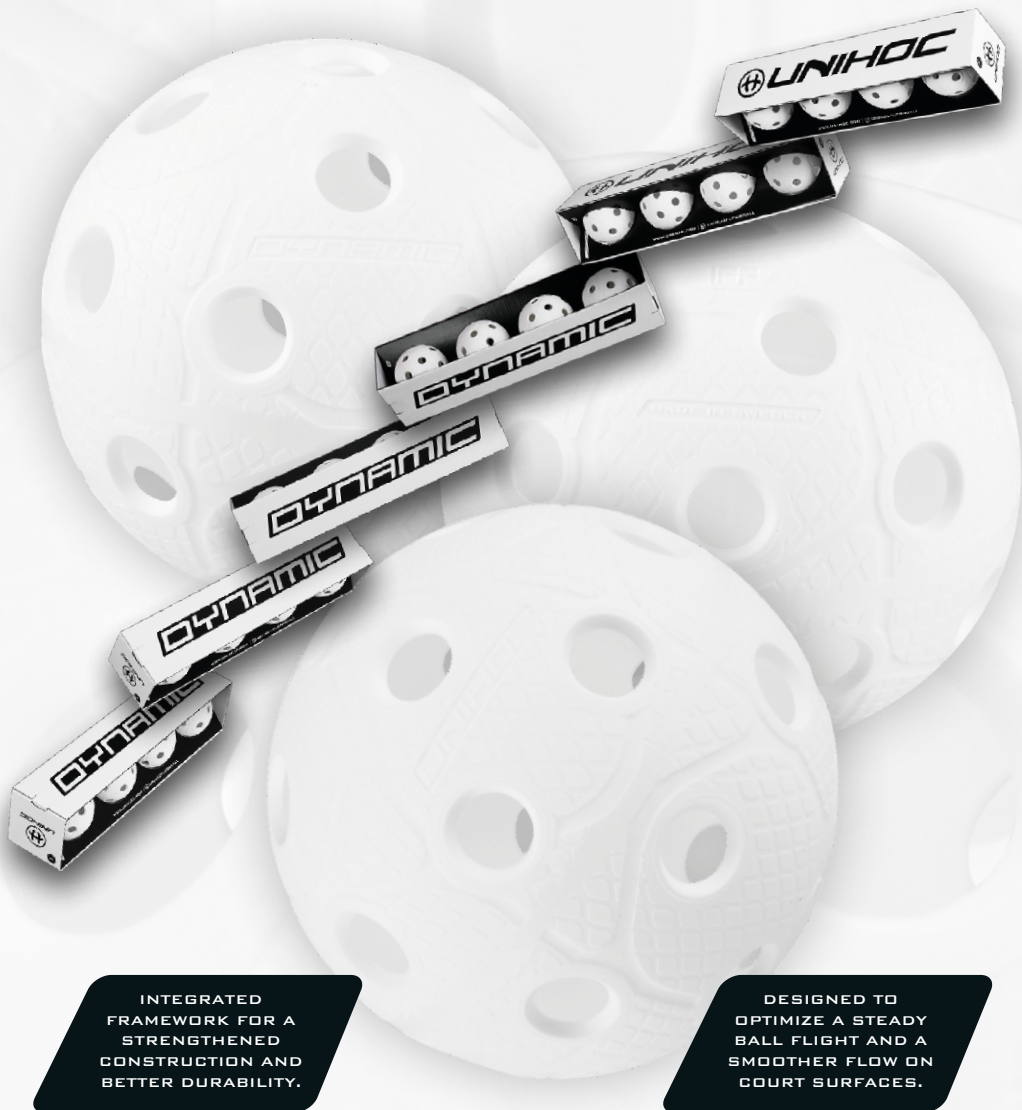

Tomas Eriksson

FOURTH TIME THE CHARM!

Women's U19 World
Floorball Championships
1-5 September 2021 | Uppsala | Sweden

After 15 months of waiting we are finally here: In IFU Arena and Uppsala, Sweden, for the Women's U19 World Championships! As chair of the Swedish Floorball Federation, I am very happy to welcome you all to this historical World Championship. This is the first time we host the U19 WFC for women in Sweden, and we are very proud to welcome you to IFU Arena and Uppsala.

Together with the City of Uppsala we have made it possible for this generation of U19-players to, instead of being lost in the shadow of the Covid-19 pandemic, play for their nations flags and honour. It has not been easy, and many sacrifices have been made.

The original 16 teams have become 9, and the tribunes in IFU Arena will not be filled with

spectators. But we are, after months and months of preparations, proud to say that we will finally be able to see these young superstars fight for the medals.

The fall of 2021 will be a very special time for the entire floorball family, with four world championships to be played between August and December. For us in Sweden this special fall time will be remarkable as two of the world championships will be played here in IFU Arena. So I'm happy to say that this historical U19 WFC is just the beginning of a fantastic floorball season!

Märit Bergendahl

**PRESIDENT,
SWEDISH
FLOORBALL
FEDERATION**

**Svensk
Innebandy**

***"We are, after
months and months
of preparations, proud
to say that we will finally

for the medals."***

WELCOME TO UPPSALA

UPPSALA has a rich and inspiring range of cultural activities and exciting events together with whole of Sweden's history – all in one place. The tourist attractions are numerous and exciting and include something for everyone. In addition, there is beautiful nature, both in the centre of town and close by. In Uppsala, the distances are short and you can easily walk or bike to any destination.

Uppsala is today a modern city yet retains a small-town feel. It's Sweden's fourth largest city and home to two universities, the archbishopric of the Church of Sweden, a rich cultural

life and beautiful scenery. Uppsala is rich in history and science and the prestigious Uppsala university is older than universities in many other countries. At the same time, the modern city is vibrating with life and is well known for its progressive research, innovation and position as a leader in modern technology.

Whether you want to eat a lot or a little, outdoors or inside, Uppsala has a wide selection of pubs, cafés and outdoor restaurants. Don't forget to enjoy a Swedish fika, a Swedish social institution: a friendly, relaxing break with coffee and cake.

Women's U19 World
Floorball Championships
1-5 September 2021 | Uppsala | Sweden

THE 9TH U19 WFC - IT'S ALL ABOUT U!

This is the 9th World Floorball Championships for the U19 Women. The first tournament was played in Finland in 2004, where Sweden won the historic gold.

As a matter of fact Sweden has won six of eight gold medals, and has the chance to win the fourth in a row here in Uppsala.

The original plan was to play these championships with 16 teams. Due to the pandemic and its effects, the

number of teams have been reduced to 9 teams.

This means the schedule has been changed as well. Now the teams in group A has one day where they play two group stage matches, and the playing time has been reduced to 3x15 minutes in that group.

But, as the original plan, the play-offs will take place on Saturday and Sunday. And after that, we will have a fresh gold medal winner!

Women's U19 World
Floorball Championships
1-5 September 2021 | Uppsala | Sweden

MEET MADELENE LANGENDORF, ON HER HOME GROUND!

Madelene Langendorf playing for Sirius in SSL is well-acquainted with IFU Arena. Here are her thoughts on playing the U19 World Championships on her home ground!

- This will be really great. I love the venue, and I'm really excited about playing the U19 World Championships here!

It's been a strange year, even two years, during the pandemic. How has this effected your preparations for the championships?

- Well actually, I would say we are more prepared now than what we would have been in May 2020. We've all become one year older, and more of us have got the chance to play in SSL, probably the best league in the world. We have been on plenty

of camps together, which made us close as a team - both on the rink and outside of it. So, despite all, it's been a long, but great preparation!

And what about your own season? What has it been like for you and the team?

- I am very pleased about what me and my team have achieved this season! I've also gained more confidence during the season, which I have been working on.

What are your expectations?

- I've learned a lot this season and have high expectations for myself and for the team. In a World Championship we can have high expectations for each other, and we have.

"Well actually, I would say we are more prepared now than what we would have been in May 2020. We've all become one year older, and more of us have got the chance to play in SSL, probably the best league in the world."

Yes, Sweden is reigning champions, and probably favourites for the title. What is it like to play under that kind of pressure?

– Personally, I find it both fun and exciting, still there is a risk of choking under pressure. But I don't think we will, we know what we're capable of, and so does the other teams, so we are confident in ourselves.

Finally, the spectators will be very

limited due to the pandemic, what are your thoughts on that?

– The number of spectators we get to have this year will be more important than you might think. Of course you go into a kind of focus while playing floorball, but the audience takes it to a completely different level, everything becomes so much more fun and intense with the audience and especially with their support!

MEET ELLI KYLMA LUOMA

Elli Kylmäluoma, who's playing in Finnish club Koovee during the upcoming season, are ready for the U19 WFC in Uppsala!

This is not your first U19 WFC, what are your memories from the last U19?

- It was a great experience, and I'm very excited about the upcoming championships. With the postponement of the championships in Uppsala we have been waiting a very long time for revenge!

How do you feel about the upcoming championships in IFU Arena?

- I'm looking forward to it! We played here in February last year

against Sweden, so I've been here before. It's a great venue and I'm excited to play here.

How have you prepared for the championships?

- The preparations have been very long due to the pandemic, we had several training camps with the national team, so we are well prepared. My season in Finland was good, and I have been developing all season, especially during the spring. I want to help the team, and play on my own high level, and I think I have good conditions to do that during the U19 WFC.

What do you say about the Finnish team's chances?

"The preparations have been very long due to the pandemic, we had several training camps with the national team, so we are well prepared. My season in Finland was good, and I have been developing all season, especially during the spring."

- Our team is really good, and we have really good chances to get to the final. We are well prepared and ready to give it all, so we definitely have chance to win. The gold medals are the goal for us.

It will be a reduced number of spectators in the venue. Have you

been playing with spectators during the season, or is this the first time since the pandemic?

- I haven't played for spectators in over a year. It's going to be really exciting, and it will definitely make the World Championships real. All players have missed playing for spectators, so it's going to be great!

Vi skapar innovativa lösningar för digitala miljöer

Det digitaliseras som aldrig förr i Sverige. Men vad är det som krävs för att din verksamhet ska kunna ta klivet? Det är inte alltid lätt att avgöra.

Vi har sett att många små och medelstora företag runt om i Sverige behöver stöd och hjälp på vägen för att lyckas med sin digitala transformation.

Det är där vi på Gibon kommer in

Vi är experter på det digitala. Vi gör det vi är bra på så att du kan göra det du är bra på.
